INTRODUCTION

Mint Web Studio is a boutique WordPress web design studio focused on building clean, professional websites that work properly.

We design websites for businesses that want clarity, credibility, and a reliable online presence – without unnecessary complexity. Our approach is calm, structured, and practical, ensuring every website is easy to understand, easy to use, and built to support real business needs.

No fuss. Just good websites.

WHAT WE DO?

Our core services include:

- **WordPress Website Design**
Clean, professional WordPress websites built with clear structure and usability in mind.
- **Professional & Authority Websites**
Websites for consultants, attorneys, and service-based businesses that require credibility and trust.
- **Website Care & Hosting**
Optional hosting, updates, backups, and basic maintenance to keep websites secure and running smoothly.

VISION & MISSION

Vision

To create a simpler, more reliable standard for website design – where businesses feel confident, supported, and proud of their online presence.

We believe a website should be a solid foundation, not a source of stress.

Mission

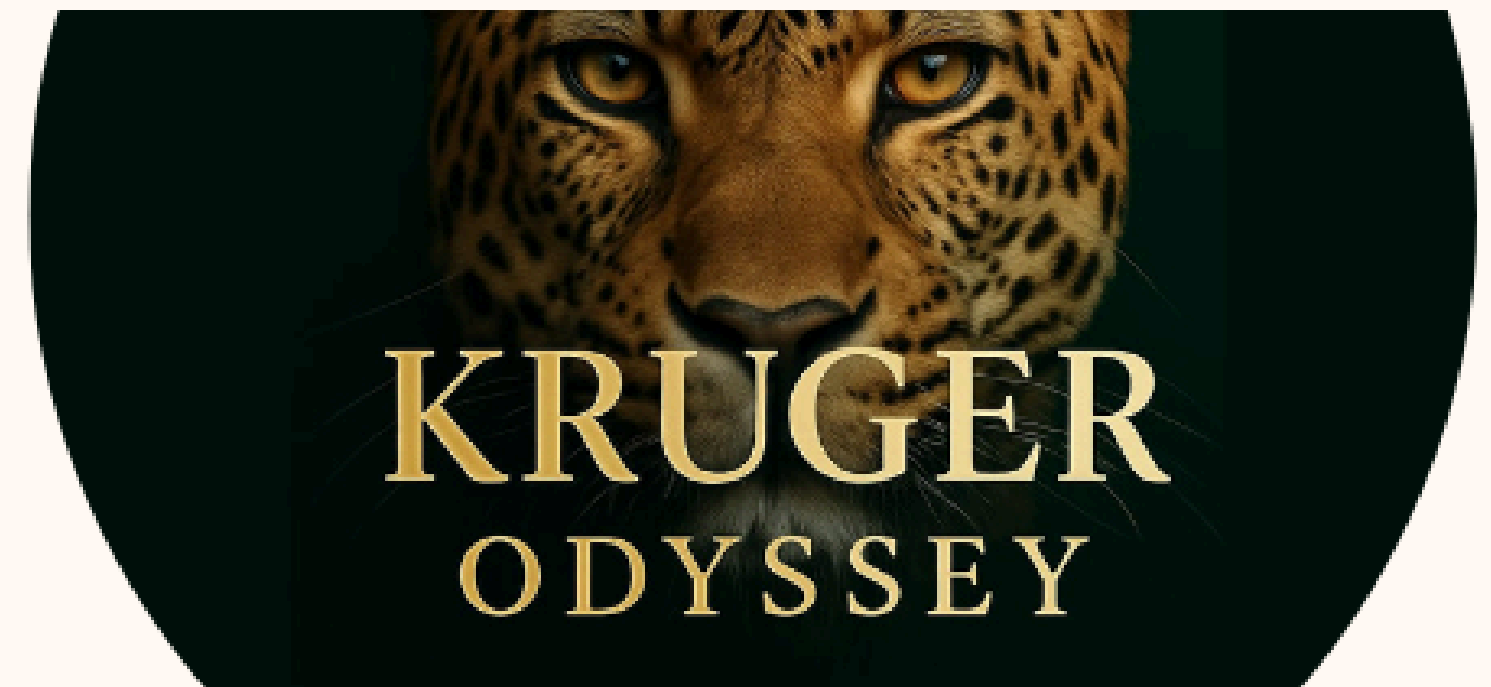

Our mission is to design well-structured, professional WordPress websites that clearly communicate what a business does and make it easy for clients to take the next step.
